

REMARKS

All of the outstanding Claims 1 - 14 are cancelled.

New Claim 15 is added. Support may be found in Applicants' Specification on page 7, lines 6 - 7, for trial basis, page 1 lines, 6 - 7, for prior to deployment in an organization, page 8, line 3, for automatic assignment, page 8, lines 10 - 15, for sensitive programs, page 11, lines 13 - 24, for separation of duties evaluation, and in Claims 1 - 14 as originally filed.

Rejection of Claims 1 - 14 under 35 U.S.C. 112 and 35 U.S.C. 101 is now moot in light of cancellation thereof.

New Claim 15 is fully supported by Applicants' originally filed Specification and Claims as noted above.

As previously noted, Bowman does not describe all of the features of Applicants' claimed invention, and in particular, does not describe or suggest the separation of duties assessment of Claim 15. For this and other reasons Claim 15 is allowable and such allowance is respectfully requested.

The Application is deemed in condition for allowance and such action by the Examiner is urged. Should differences remain, however, which do not place one/more of the remaining claims in condition for allowance, the Examiner is requested to phone the undersigned at the number provided below for the purpose of providing constructive assistance and suggestions in accordance with M.P.E.P. Sections 707, 707.07(d) and 707.07(j) in order that allowable claims can be presented, thereby placing the application in condition for allowance without further

application in condition for allowance without further
proceedings being necessary.

Respectfully submitted,
